Justice Samuel T. Maddox held a special term of the Supreme Court here yesterday morning. An Italian, Dominic Dominico, applied to be natural-ized. He was unable to answer the simplest ques-tions, and Justice Maddox stated emphatically that he would decline to admit the attraction and he would decline to admit to citizenship any man who could not read the constitutions of the United States and of the State of New-York. He then ad-

The village trustees have received a number of complaints from taxpayers who assert that the electric lights of the village are below the required standard. The Committee on Street Lighting will ask the State authorities to make an investigation. R. B. Goodman, superintendent of the local company, contends that the lights meet the prescribed candle power and will bear investigation.

Thieves broke into the home of Mr. and Mrs. Webster McGrath, in Broadway, late Friday evening, but were frightened away by the timely arrival of the occupants, who had been out visiting. Returning home about midnight Mr. McGrath heard a noise in the kitchen. An investigation showed that some one had forced an entrance through a window, but had apparently been frightened off without booty by Mr. McGrath's arrival.

A sneakthief also entered the home of William L. Banks, near by, on the same evening, but only succeeded in stealing an overcoat. No clew to the burglars has been found, but the police suspect some local talent.

The will of Jotham Tompkins, who left his estate to his doctor, John J. Burnell, of Greenwich, Conn., as he had no family of his own and the doctor had been kind to him, is now to be contested, and the preliminary papers were filed in the Surrogate's office of Westchester County yesterday. Peekskill's gas supply is still short. An officer of the company said to a Tribune reporter that every dollar of gas sold is now costing \$\frac{1}{2}\$ to make. Every expedient known to the trade is being used to keep up the supply; still the famine exists, and candles and lamps are being used in many stores and houses. The company hopes to make gas in the new works on December 1. In the mean time consumers have to grin and bear it. The usual monthip bills were sent out last week, and although gas was the scarcest thing in Peekskill in Octobe people are comparing their bills and finding the bills for October larger than those of the preceding month.

# NEW-ROCHELLE.

At a special meeting of the Common Council on Friday night Mayor Dilion submitted the appoint-ment of Henry T. Smith to fill the vacancy caused by the promotion of Herbert A. Quackenbush to the long term left vacant by the death of Dr. William H. Nellson. The nomination was confirmed unanimously, and Mr. Smith, who was present, was sworn in and took his seat. The Mayor also submitted a message on the electric light question, in which he called attention to the poor service being given, both in this city and Mount Vernon, by the East Chester Electric Light Company since its consolidation with the Larchmont Electric Company. Mayor Dillon favors municipal owner-ship, but as it would be almost impossible for the city to get the money at this time to buy out the ship, but as it would be almost impossible for the city to get the money at this time to buy out the city to get the money at this time to buy out the city to get the money at this time to buy out the city to get the money at this time to buy out the city to get the money at this time to buy out the city. The people of New-Rochelle, Mayor Dillon declared, are growing tired of being inadequately supplied with electricity by concerns whose plants are located in Mount Vernon and Mamaroneck. After the reading of the message a resolution, offered by Alderman Sutton, authorizing the City Clerk to advertise for bids for lighting the city with electricity, was adopted. A communication was read from Colonel Richard Lathers, who last week offered to give the city a road to connect with North Pelham. Colonel Lathers said that, as the offer had not been received favorably by the Aldermen be would withdraw it for the present. The action of Mayor Dillon in ordering the Union Railway Company to remove its horsecar tracks from Centre-ave, so that the city contractors can pave the street, was unanimously approved, and the Mayor was authorized to direct the city workmen to tear up the tracks if the company failed to do so yesterday. Alderman Siebrecht recommended the payment to Charles G. Banks of \$2.15 and \$500 to Mrs. Varian for the changes of grade near their property in Huguenot-st.

# PORT CHESTER.

The Port Chester Street Rallway began yesterlay to extend its track from Elm-st., where it left off last Sunday, through Purchase-st., to the prop rrty of James L. Howard and James M. Field. There is an injunction covering the remainder of the distance needed by the trolley company to make a final connection, and it cannot proceed legally any further than the Howard and Field property until it is dissolved. Three months at least will be required before the injunction can be finally acted on by the courts.

# THE ORIGIN OF THE BOERS.

From The Church Gazette. The feud between the Boers and ourselves is of long standing. The first colonists, who, by the way, though containing a large Dutch contingent, numbered among them a good proportion of other nationalities, such as Germans, Danish, Portuguese, etc. were in the service of the Dutch East India Company. Their condition seems to have been far from prosperous. Wagenaar, the second Governor of Cape Town, writes in his report that many of them were praying for the English fleet to come and rescue them from this devilish country, and take them away, no matter where.
